Profile

I enjoy learning new skills. I started programming as a personal challenge. And found that I can grow every day as a developer.

I'm delighted by the possibility of creating code that benefits people worldwide.

I have experience in frontend and backend using Javascript, PHP, and SQL. Currently, learning React and NodeJS.

I'm looking for a work environment that values teamwork and continual growth.

Skills

React • JavaScript • HTML • CSS • PHP
SQL • Wordpress • Command Line • Git
